

ENVIRONMENTAL POLICY STATEMENT

Sheffield International Venues recognises that our operations have a direct impact on the environment.

This policy has been introduced to reduce this impact and wherever possible enhance the environment through our operations.

Under this policy Sheffield International Venues are committed to continually improve our environmental performance through the following methods:

- Improve our energy efficiency throughout all sites.
- Wherever viable seek alternate forms of green energy for our sites.
- Reduce waste to the lowest practicable minimum & promote re-cycling.
- Actively encourage similar environmental standards from our suppliers and contractors.
- Reduce the use of raw materials wherever possible.
- Work to comply with and exceed all environmental legislation and codes of practice.
- Assess and minimise the negative affect of any historic, current and future operations.
- Encourage more environmentally sound transport solutions to staff & customers alike.

Reports will be issued yearly to the board to update on how we are progressing under the policy.

This policy has been brought to the attention of all employees, contractors, and suppliers and copies are freely available to the general public, regulatory authorities and customers.

This policy has been formalised and endorsed by the company's directors.

ENVIRONMENTAL ACTION PROGRAMME

The Sheffield International Venues Environmental Action Programme has been formulated to implement the Environmental Policy Statement and has broken down the policy into individual areas.

This programme is a working document and will be reviewed on a six monthly basis initially, progress made in accordance with the policy will be documented and a progress report will be produced for discussion at board meetings.

“Improve our energy efficiency throughout all sites”
